

## Nutrition Information Project

NAME \_\_\_\_\_

### Part 2-Nutrition Label Poster

**Objective:** Students will use their summarized findings to create a computer generated poster size nutrition label of their favorite food.

**Directions:** To create your poster size nutrition label you may use any computer aided software (excel, word etc.) and use any resources available to you to create a neat and informative nutrition label *for the public to view.*

| Part of Label  | Point Value |
|--|-------------|
| NAME OF FOOD   | 5           |
| NET WEIGHT (If unavailable, add another part to the label) | 5           |
| SERVING SIZE   | 5           |
| CALORIES   | 5           |
| FAT  | 5           |
| SODIUM   | 5           |
| CARBOHYDRATES  | 5           |
| PROTEIN  | 5           |
| FIBER  | 5           |

NEATNESS (15 points) Poster is neat, legible, and clean.

INFORMATIONAL (15 points) Poster provides all of the required information in a nutrition label format.

CREATIVITY (15 points) Poster is an example of the student's creativity level, for this assignment you may add one or two clip art to be more creative.

PROMPTNESS (10 points) Poster is completed and turned in on time.

\*Points for neatness, informational, creativity, and promptness will be marked in 5 point increments.

Total points for the poster is 100.

Your score \_\_\_\_/100
